Description This handcrafted 18 karat yellow gold and platinum pendant by master goldsmith Anthony Gerard holds a rare aquamarine by world renowned gem sculptor Bernd Munsteiner of Idar- Oberstein, Germany. Extreme angular planes of lustrous 18 karat yellow gold set with 23 fiery princess diamonds outline the spectacular faceting of the intense Nigerian- blue aqua fantasy-cut of 11.30 carats. The platinum- sleeved bale provides for virtually abrasive- free wear. Total diamond weight is 1.20 carats.

History Gerard chose the aqua from Munsteiner's 1991 U.S. importation for it's superior transparency and perfect reflective properties. This pendant is a signature piece in the Anthony Gerard Collection, requiring more than 50 hours in design and fabrication. The pendant was selected from the Anthony Gerard Collection by Mr. Kenneth Harvey of Phoenix, Arizona.
